Feel free to note anything you feel to be important. Note that we will not assess who is 'most' in need, as that is impossible. We simply want to get an understanding of who is in need, who genuinely feels like they could use help to make it through! We see you and, as alumni, understand the struggle.

By submitting this application, you acknowledge that upon receiving funds from this grant you commit to completing your studies at the DAI. In the event of non-completion of the academic year in which the funds are received, the funds must be reimbursed.
